

Muhammad Salmun

CTO/Maker Space

Dear sir/madam

As a young, motivated individual I am extremely interested to contribute my knowledge and skills by playing a noticeable role in the Executive Committee of IEDC. As an ambitious EEE student, a technically self-sufficient community is my motto.

During the course of my academic career, i have managed to acquire the experience of working with the electrical team of ESVC and Jäger. I am currently a part of the start-up VECTOR- spreadingtech which is incubated under Kerala start-up mission. Where I learned valuable professional skills like leadership and management. Being one among the execom members of IEI TKMCE, whether working on academic, extra-curricular or professional projects, I apply proven communication, coding, technical & presentation skills which I hope to influence into the CTO role in the organization.

I look forward to proving on how my specific skills and abilities will benefit the organization. Thank you for your consideration and i look forward to hearing from you soon.

Sincerely
Muhammad Salmun S
