Innovation and Entrepreneurship Development Cell
TKM College of Engineering
Kollam

Dear Team, IEDC,

I'm Thameem, 6th semester Electronics and Communication Engineering student and passionate about cutting edge technologies.

I have been an active member of IEDC, since August 2018 as Web administrator and I have a good volunteering experience from Evoke19, Hestia etc.

Apart from these I have conducted different sessions on IoT, Arduino, Algorithm & Data structure, web development etc. for 1st and 2nd year students.

A few of my achievements and responsibilities are listed below.

- Winner – KSUM Idea fest 2019
- Second runner up – Smart India Hackathon 2019
- Finalist – India Police Hackathon
- Microsoft Student Partner 2020
- Web Master – IEEE SB TKMCE (JAN 2019 – JAN 2020)
- Web Administrator – IEDC TKMCE (Since AUG 2018)
- Web & App Head Hestia'20

I believe it will suit me for the positions of Chief Technology Officer or Chief Operating Officer.

Still, I always like to organize different events and meetups which may help our students and society to learn the trending technologies, building their ideas and help them to make their dreams come true and create a healthy tech culture in our campus.

If you want to know more about me my personal portfolio and resume will help you.
