

Respected Sir/Madam,

This is regarding the IEDC EXCOM selection. I'm looking for practical experiences within the posts you are hiring and feel that a position within the EXCOM would help me to demonstrate the abilities that I have.

I am really a passionate and hardworking person. I feel that having a position in IEDC will help me to empower myself and ~~my~~ empowers my fellow beings. I worked with IEFEE for many programs and I was in the team of Artocart, a student startup.

The reason I want to work with you is that, I want to show my capabilities and also I want to grow my qualities of entrepreneurship. Instead of working for someone else I want to be my own boss and should like to put forward many ideas that help the human beings.

So, please help me to empower myself
in the field of entrepreneurship as well
as help me to grow my leadership
qualities by choosing me for the position
I am interested in.

Yours faithfully,

ARSHA V CHAND
