

Dear **Ms/Mr. Vignesh R Babu**

The Innovation & Entrepreneurship Development Cell has sparked my enthusiasm to apply and become your next CCO. My ambitious interest in volunteering and management along with technical expertise would be a unique and enriching experience for both the parties.

With extensive experience in volunteering and management in challenging and time sensitive scenarios, I'm highly organised, efficient and proactive. Being very diligent and highly motivated I possess excellent designing, technical, communication and presentation skills and would strive with tenacity for the success of the organisation. I succeed in working independently as well as in mutually sharing creative ideas with other team members. In addition to these traits, I have keen interest in art and culture.

I'm an active member of a number of other institutions in the college like **Designer Technos, NSS Unit TKMCE** and was selected as the **KTU Tech Fest zonal coordinator** for Pattanamthitta and Kollam. I've also been part of the IEEE documentation team, **TKM magazine team, Hestia'20 technical coordination team** and the **organizing committee for TKM OMUN**.

The main achievements that I had in the past, that are highly relevant to this specific case proving the values that I can add to the organisation are:

- One among the selected cadets of 3 (Kerala) **Air Squadron NCC** to fly microlight aircraft.
- One among the 16 selected students from Kerala to participate in '**Proud to be an Indian**' programme hosted by **Asianet**.
- **State science fair winner** on improvised experiments competition.
- Sub district student representative in **Sasthrayan project**.
- Participated in **State Students Science Congress** held at Trivandrum.
- Participated in National Students Science Congress held at Visvesvaraya Tech Museum at Bangalore.
- Second prize winner at I am **Kalam All Kerala Science Exhibition** in the zonal level.
- Participated in **State science fair in research** type project

In addition to my experience and relationship-building experience, I have a solid educational foundation and a passion for furthering projects that build loyalty and, in turn, benefit the organisation.

I'm sure, given the opportunity, I can bring values to the organisation, utilizing my appropriate skill set, relevant experience and education.

Thank you for your time and consideration.

Regards,

Anitha K R
