

06.05.2020

Dear Sir,

Good day!

I am very interested in applying for the position of E-Cell Head for the execom for the year 2020-21.

I am Mohammed Bilal of T4. I wish to be part of this organisation in order to bring about some changes in our college which I am very much passionate about such as encouraging a peer learning community in our college which I feel is lacking, in addition towards developing entrepreneurial ecosystem. I'm very much into tech and is enthusiastic about FOSS.

Coming towards my previous experiences, I haven't held any positions of responsibility for any organisation or club. A position of responsibility that I hold currently is as our class representative and has been effective in handling matters concerning the class and batch as a whole. I was also a 2nd year volunteer head for Hestia.

I don't have any major achievements in college to be listed out however I am an active participant of all the events held at college. My main motivation for to apply for this role is that I strongly believe this can be an opportunity for advancement, a chance to continue building my skills in many areas, a chance to get involved in a new area and much more.

Please feel free to contact me at any time. My contact details are as follows:

Phone: 9995153948

Email: r.mohammedbilal@gmail.com

Thank you for this opportunity; I am looking forward to being part of this amazing organisation.

Regards,

Mohammed Bilal
